COVER STORY

SUSANNE ARENS

In the realm of the paranormal, there are those who claim, and then there are those who prove. Susanne Arens falls firmly into the latter category. As an Evidential Psychic Medium, she stands at the intersection of the known and the uncharted, offering tangible glimpses into the afterlife. Her work, captured through the lens of her camera, has garnered the attention of even the most seasoned professionals in the field.

AN EVIDENTIAL PSYCHIC MEDIUM

Laura, a producer of several acclaimed paranormal cable television shows, expressed her astonishment at the level of evidence Susanne brings to light. While some spend days on location in pursuit of ethereal encounters, Susanne's uncanny ability to capture the elusive is nothing short of extraordinary.

For Susanne, it's not just about taking a photograph; it's about offering solace to the broken-hearted. Clients come to her seeking connection to their loved ones who has passed into Spirit. They search for reassurance and hope that they'll see their loved ones again. Susanne provides them with something invaluable—an irrefutable affirmation that their loved ones endure beyond the veil.

It's a transformation that leaves an indelible mark. Skeptics, too, find their beliefs challenged in the face of Susanne's compelling visual evidence.

AMERICAN PARANORMAL

MAGAZINE
COVER STORY

Her work becomes a bridge between doubt and belief, a testament to the enduring power of the human spirit.

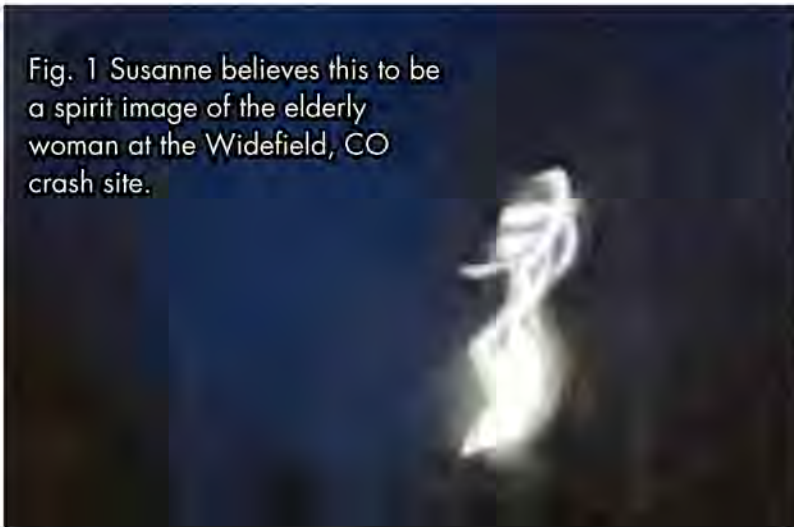

In her own words, Susanne offers a poignant analogy: just as vehicles transport us through life, our souls navigate the journey of existence. When the vehicle we are traveling in reaches the end of its usefulness, the soul simply moves on to a new one, but while we are in between vessels, our soul is not visible to most people, however, we are still around. This eternal cycle of rebirth and renewal is the cornerstone of Susanne's philosophy.

Her quest for knowledge knows no bounds. From historic landmarks to bustling urban hubs, Susanne embarks on journeys to unearth connections with the ethereal. Spirits, she believes, are never far from us, even if they remain invisible to the naked eye. Her ongoing collection of stories and images from places like the Cripple Creek Mining Town and the

Carnton Battlefield promises to be a treasure trove for those seeking answers.

In a touching encounter at the site of a tragic plane crash in Widefield, Colorado on March 3, 1991, where 25 souls departed with no survivors, Susanne paid her heartfelt respects. In the midst of this solemn moment, she found herself in the presence of two departed passengers—an elderly lady and a businessman. Moved by their spirits, Susanne captured a photograph, one that would forever etch itself into her memory (see *Fig. 1*). As she gazed at the image, she was convinced it was the very same lady she had conversed with earlier—a vision of grace and tranquility. The encounter took an unexpected turn when the lady conveyed an

astonishing revelation. Rather than fear, she embraced her transition to the afterlife with unbridled joy. She shared a vision of a heavenly reunion, where departed souls were welcomed by loved ones in a celebration of pure, unbounded joy. This extraordinary encounter stands as a testament to the profound connections Susanne forges with the departed, offering solace and hope to those who seek it.

In this pursuit, Susanne's husband, Arthur, stands as her steadfast companion, providing protection during both day and night excursions. Armed with little more than a smartphone or a standard digital camera, Susanne employs a methodical approach to her craft. It's a process that demands meticulous scrutiny, an unflinching

commitment to debunking an false leads. Through her lens, she captures the dance of energy and presence, revealing a world that coexists with ours (*see Fig. 2, Fig. 3, Fig. 4*).

Every photograph taken is subject to rigorous analysis, a meticulous process that leaves no room for speculation. Susanne is resolute in her commitment to disentangling any potential misconceptions or illusions. With an artist's eye and a scientist's rigor, she discerns the subtlest nuances, distinguishing

the genuine from the ordinary. Her lens reveals a world unseen by many unfolds, where energy ebbs and flows, and presences linger. It's a reality that coexists seamlessly with our own, waiting patiently for those with the discernment to perceive it. In the dance between light and shadow, Susanne captures moments of transcendence, providing tangible proof that the boundaries between life and the afterlife are permeable, if one knows where to look.

For those eager to explore Susanne's captivating body of work, she generously shares her findings on various social media platforms. There, the curious can witness the ethereal captured in pixels and frames.

And for those hungry for more, a forthcoming book promises to be a compendium of extraordinary encounters, each page a testament to the enduring nature of the soul. The book will contain links to photos and videos, only available in the book. You'll be able to find the book at Archway Publishing | Simon & Schuster.

In the world of Susanne Arens, the boundaries between the living and the departed blur, replaced by a tapestry of connection and continuity. Through her lens, she offers us not just photographs, but glimpses into eternity. For those eager to embark on this extraordinary journey, visit her website at crystalpeakmedium.com and connect with her on social media via [TikTok](#), [Facebook](#), [Instagram](#), and [Twitter](#). Don't miss this opportunity to witness the extraordinary, and perhaps, to glimpse the afterlife itself.
